PRESENT ORDINANCE 9, EXHIBIT "A" & EXHIBIT "B"

The board presented Ordinance 9 to the public for their information. Exhibit A shows no rate increases for water and shows a 7% rate increase for the waste water rates. The board reported that the District received 82 written protests to the rate increase. After a small discussion of the document presented, the board asked the public in attendance if they had any comments or questions.

PUBLIC QUESTIONS AND COMMENTS

Mr. Glain explained that he was in favor of the plan and that the rate increase could not be avoided.

Ms. Margaretic asked about the grant process and if there was any possibility of more grant money available in the future to offset the cost of the new plant. The board assured her that the board was continuously looking to grant monies and will apply for them to keep the costs as low as possible. Ms. Margaretic requested that the Secretary email a copy of the approved minutes of the last meeting to her as soon as possible. Ms. Margaretic was satisfied with the reasons for the rate increase.
